

# L'histoire de la programmation parallèle en Java

™ Henri Tremblay  
Directeur de TS Imagine Canada  
[@henri\\_tremblay](https://twitter.com/henri_tremblay)

EASYMOCK

JB JENESIS

EHCACHE

- More or less made possible class mocking and proxying
- Coined the term “partial mocking”

> <https://www.oreilly.com/live-events/java-9-to-21-how-to-code-like-a-pro/0636920094349/>

> Prochain cours: 19 mars 8h – 12h

Notre exemple du jour

# Séquentiel

Lié au processeur (CPU bound)

Lié aux entrées-sorties (IO bound)

Le passé

# Java 1.0 Threads

# Java 1.5

## JMM

# Java 1.5 Executor

# Java 1.7

## ForkJoinPool

Java 1.8

Parallel streams

# Java 1.8

## Completable futures

# Java 9 Flow

Le présent

# Java 21

## Virtual threads

Le futur

Java > 22

Structured concurrency

Java > 22

Scoped values

# Benchmark

# Conclusion

Qui a appris quelque  
chose aujourd'hui?

?
